

SAGE Wisdom

EXECUTIVE COACHING + STRATEGIC THOUGHT PARTNERSHIP

SAGE Wisdom partners with organizations and leaders. We help leaders deepen awareness of the identities, beliefs, and patterns influencing how they respond as their roles and leadership contexts evolve.

AN EXAMPLE IN PRACTICE

A successful leader is taking on greater scope and can no longer stay as close to every important piece of work.

SAGE	EVERGREEN DEFINITION	CURRENT EXPRESSION	WHAT MIGHT EVOLVE
IDENTITY	Who I believe I am	I am a leader who gets things done.	I am a leader who creates the conditions for others to succeed.
BELIEF	What I hold to be true	My involvement helps ensure excellence.	Excellence doesn't require my involvement in everything.
MEANING	What I make it mean	Being deeply engaged is part of responsible leadership.	Responsible leadership also means trusting and developing others.
CHOICE	What I choose to do	I stay close to important work.	I focus my attention where it adds the greatest value and create clear ownership elsewhere.
RESULT	What I create and experience	My leadership produces strong results and earns trust.	My team builds capacity, and I gain the range to lead at greater scale.

Coaching creates space to examine what should remain, what may need to evolve, and what greater range the next chapter of leadership requires.
